

USING THIS WEBSITE

Breadth and Depth

This website is the information hub of the Harrogate Bowling Club. For example, you can discover who won a particular competition in 1931, which members have got through to the next round of a knockout competition (during the bowling season), be reminded of the best bowling techniques or learn when the next coffee morning is due to be held.

A Window to the Outside World

It is also our window to the outside world and allows others to look in and see what a bowling club is all about. And maybe encourage some of our visitors to join us...

Ease of use

Site Map

It can sometimes be difficult to find what you're looking for. The link below will take you to a "map" of the site.

Click-thru

Most boxes on the website pages that contain text are "click-thru". All you need do is tap on them to get access to a lot more information.

Downloadable and Printable

Many of the web page descriptions and tables are in what is known as PDF format. Each has a toolbar at the top which you can use to print and/or download them - or view them in a larger size.

Work-in-progress

However, like all websites it is never finished, it is always work-in-progress. And never more so as the new bowling season approaches and information is being updated and the structure of the website improved.

Please be patient if you find parts aren't working. This is a consequence (we hope) of updates that are taking place.

Important - Refresh the Site

Changes to the website are made behind the scenes and, when ready, the website is republished on the internet, at which point the changes should be visible and available for you to enjoy.

However, sometimes you might not be able to see those changes the next time you visit but, fortunately, it's easily fixed. All you need do is refresh the website on your device by opening it and then:

- On smartphones and tablets: Swipe down with your finger. You will see what looks like a small rotating dial near the top of your screen which shows the website is being refreshed!
- On desktop computers: Use the refresh button in your browser.

Although not essential, it's good practice to do this each time you visit the website.

Confidential Information

Some information is confidential and can only be accessed by members of the Club. This information is contained in the "Members' Area", and is password protected.

Feedback

As we have mentioned, all websites should always be viewed as work-in-progress. There are always opportunities for improvement.
